

Attorney Docket: P166/1479P

b) providing an image to display on the display screen, the image comprising a plurality of pixels having luminance values; and

c) displaying the image by

    i) modifying the luminance value of each pixel of the image data that falls within the area of the overlay bar, and

    ii) overwriting each pixel of image data that falls under a pixel of text in the overlay bar,

wherein modifying the luminance values of the image data provides the overlay bar with a translucent appearance thereby enabling a user to see the image through the overlay bar.
